

EMPLOYEE RECOGNITION AWARD

December 2024

EMPLOYEE: Kyle Wright

UNIT: Site Cleanup Program

TITLE: Engineering Geologist

SUPERVISOR/TITLE: Alex Olsen, Supervising Engineering Geologist

In November 2024, Kyle completed and sent letters to dischargers regarding:

- Review of a soil vapor probe installation and sampling report
- Review of two PFAS assessment reports
- Review of a work plan for additional PFAS assessment
- Review of soil vapor sampling report
- Review of a comprehensive site assessment report
- Review of a LNAPL plume transmissivity and stability report, and
- Review of three groundwater monitoring reports

In addition, Kyle volunteered to help Madera County Environmental Health with the sampling and assessment of a septic tank that was suspected of containing diesel fuel in Oakhurst.

Kyle applies his consulting experience and technical skills to regulate and bring into compliance the facilities he oversees. He provides insightful data interpretation and responses to dischargers in a timely manner. Additionally, Kyle displays a level of professionalism and dedication that represents the Central Valley Water Board well. Thank you, Kyle, for all your hard work. You are an asset to the Site Cleanup Program and very deserving of this recognition.
